---

## **PROFESSIONAL GOAL**

Ruby, Node, Elixir Developer.

---

## **SUMMARY OF QUALIFICATIONS**

Ruby;Node;Google Cloud;Kubernetes;Docker;Deploy Rails & Node  
Apps;Javascript;Ember;React;Vue.js;Amazon SQS;Amazon S3;Amazon AWS;Amazon EC2;Spree  
Commerce;Scrum;Agile;GIT;SEO;English;VIM;Rails;Elixir;Google Container Engine;Heroku;Container  
orchestration via kubernetes;API;HTML5;Ember;Twitter  
Bootstrap;SQL;ElasticSearch;Redis;Postgres;Nginx;SysAdmin;Linux;GitHub;

---

## **ACADEMIC FORMATION**

Technology College of Mogi das Cruzes - FATEC Mogi das Cruzes/SP, 2015 - Dropout (can finish if needed)

---

## **PROFESSIONAL EXPERIENCE**

[2014, Yebo, Plataforma de E Commerce api - in development](#)

Developing and maintaining large-scale E-Commerce platform using bleeding edge technologies such as: Ruby, Amazon SQS, Redis, Docker, Docker Compose, Continuous integration, Elasticsearch, PostgreSQL, kubernetes and others.  
Developing E-Commerce API to follow the newest API conventions and standards, with Grape, Rails, AMS, and JWT as authentication and JSON as the notation language.  
Creating a Javascript SDK for the E-Commerce API and using this SDK in EmberJS applications.  
E-Commerce platform SysAdmin, with docker-compose in production, Redis for caching, SQS for asynchronous jobs, Nginx for Web Hosting.  
Developing E-Commerce using Restful API, javascript with EmberJS.

---

## **PROJECTS**

[Veran Delivery](#); [Zero 13](#); [Clique Pet](#); [Naufel Surf](#); [Loja Diario](#); [Laverrie](#); [Gravity Slacklines](#); [Vivre Shop](#)

---
